## IN DEDICATION

**CHARLES E. MENDENHALL**

May 14, 1920 to March 9, 1977

The day never really ended for Charlie, whose personal and professional life was committed to the needs of young people. Whether they needed personal counsel or advice on the conduct of club business, students who have known him over ten years have known that they could count on Charlie, regardless of the time of day—or the day of the week.

He was always willing to provide encouragement, and challenged students to extend themselves beyond their past accomplishments. The best interests of young people, especially the students he worked with, seemed always to guide him.

A number of Cal Poly Alumni are among the men and women throughout California who owe a large measure of their success as parents and citizens to Charlie. He called many of them "my kids", but all knew him as a friend that could be counted on for encouragement, guidance, and, when needed, other kinds of support.

The thirty years Charlie spent as a professional in agricultural communications (twenty at the Modesto Bee and ten at Cal Poly) brought him many honors. We dedicate this book to the continued memory of his commitment to the needs and interests of Cal Poly students.

## EL RODEO '70

Publishing the first yearbook since 1971 proved to be quite a task for the staff of the El Rodeo 1977. With only a short time to put the book together, the members of the staff and I spent many hard hours.

Within the short amount of time and limited experience, we designed layouts, shot and developed pictures, and coordinated the senior photo sessions.

We are now on our feet and next year we plan to include more ASI-sponsored events and clubs in the yearbook.

It has been a rewarding experience to serve you as ASI President, Finance Chairman, and Editor of the yearbook. I hope returning students will continue the tasks of leadership in student government.

# STUDENT GOVERNMENT

# ASSOCIATED STUDENT OFFICERS

Far Upper Left: ASI President, Ole Meland.

Upper Right: ASI Vice President, Ray Davis.

Lower Left: External Affairs Assistant to ASI President, Nancy Witham.

Lower Center: ASI Secretary, Sharon Harrington.

Lower Right: Internal Affairs Assistant to ASI President, Paul Curtis.

The Associated Students, Inc. is the non-profit organization to which all students at Cal Poly belong. Each year a total of \$20 is paid by each member-student for the purpose of financing various activities and services which operate for the benefit of the Associated Students, Incorporated.

To administer these programs, a system of student government was established. The administration of this system is composed of four major administrative bodies which include the Student Affairs Council, Program Council, Administrative Council, Academic Council, and the various regulatory boards. There are seven school councils and eight regulatory boards. The membership of these bodies consist of smaller committees or clubs. The effect of the overall system is to allow input from the grassroots level to be made known at the highest administrative level of the ASI.

The Student Affairs Council is the board of directors for the corporation (i.e., Associated Students, Inc.). It also has the unique dual role of acting as a liaison with the University administration as well as acting as the legislative body of student government. Its duties include ultimate responsibility for the transactions and decisions of ASI.

## STUDENT AFFAIRS COUNCIL

### FINANCE

Finance Committee is comprised of two representatives from each of the seven schools. In addition to the school representatives the committee is strengthened by the ASI President, a Representative from the Dean of Student Affairs, Director of University Business Affairs, ASI Business Manager and Finance Chairperson. Finance Committee makes recommendations to the Student Affairs Council on a budget that exceeds \$800,000 annually.

## Student Executive Cabinet

The Student Executive Cabinet (SEC) is a branch of the ASI governmental structure that oversees the operations of programming of the campus organizations and boards. It is part of the executive portion and as such makes recommendations to the ASI President and the Student Affairs Council. In addition, it has the power to direct the ASI President to veto any legislation passed by SAC, as well as authority over the scheduling of all ASI events. Its membership consists of the ASI President, ASI Vice-President, ASI Secretary, Chairpersons of the Board of Athletic Control, Program Board, Music Board of Control, Publisher's Board, Poly Royal Board, Week of Welcome Board, Rose Float, Homecoming, Ethnic Programming Board, Women's Athletic Board, Intramurals, Rally Committee, and the seven school councils. Under the new ASI By-law revisions, this body will become the Program Council and the three new reps will be added. They are the Panhellenic, Inter-Fraternity Council, and Human Growth and Understanding Committee.

## President's Administrative Cabinet

The President Administrative Cabinet (PAC) is a recommending body of the ASI which is a portion of the executive branch of student government. The body consists of ASI officers, the appointment of the ASI President to University Wide Committees and Ad Hoc Committees set up by the President of the University, the voting representatives of the ASI on the Academic Senate and its various committees, appointments of the ASI President to various committees of the Foundation, and several non-voting members which may include the University President, and Academic Senate Representative, and the Director of ASI Activities.

Duties of the cabinet are to advise the ASI President on academic and administrative matters; make recommendations to the Student Affairs Council; and advise the ASI of its committee work and progress. Under the new ASI By-law revisions this body will be replaced by two smaller bodies known as the Academic Council and Administrative Council.

# 1973

1973 was the year in which national and international politics were in the news: immediately after Nixon's swearing in, Lyndon Johnson died, followed in February by the opening of the Watergate investigations and the seizing of Wounded Knee by the American Indians. April brought the nation-wide meat boycott, and the launching of Skylab, the orbiting space station. Finally, the departure of the last combat troops from Vietnam was followed by the Chilean coup, Agnew's resignation, the beginning of yet another Middle East war, the rationing of gasoline in the United States and the final disappointment of Comet Kahoutek.

## THE WORLD AROUND US

# 1974

By 1974 the United States was making moves to adjust to a milieu of seeming crises. The Alaskan pipeline was approved, Kissinger's negotiations in the Middle East finally resulted in an accord, while the Republican Administration was increasingly under fire in the Watergate investigations. Americans were horrified at the kidnapping of Patty Hearst and amazed at the resignation of Nixon's top aides, and also intrigued by Mariner 10's fly-by of Mercury, Hank Aaron's 715th home run, and Russia's deporting of Solzhenitsyn. In July, the American political crisis came to a head with the subpoenaing of Nixon's tapes, his resignation in August, and Ford's pardon in September. Finally, Ford approved private ownership of gold and the Oil Embargo was lifted.

## THE WORLD AROUND US

# 1975

In 1975 the United States began its adjustment to a world where events seemed to outrun our capacity to absorb them. While Rockefeller began investigations into the misdeeds of the CIA and Ford announced the U.S. was in a recession, the Bicentennial celebrations officially began. In April, Vietnam again entered the news as the remaining U.S. personnel had to be evacuated from Saigon. Meanwhile, New York City was in the midst of financial crisis. The danger of aerosol sprays to the atmosphere, an assassination attempt on Ford, the UN declaration of Zionism as a form of racism, and the dictatorial emergency in India were other newsworthy events.

## THE WORLD AROUND US

# 1976

America demonstrated its capacity to adapt in 1976. Old faces reappeared and new faces stepped forward to provide new hopes. The Winter Olympics, Surveyor's Mars photos, the national political conventions and the election of Jimmy Carter dominated the news and TV screens. The U.S. began to celebrate our 200th birthday. Marijuana was decriminalized in California, a new investigation of the Kennedy and King assassinations was begun, and in Congress a new scandal began as a result of Elizabeth Ray's revelations. Meanwhile, old faces made one last appearance as Eldridge Cleaver returned to the U.S. for trial, Mao died in China, and King Kong returned to New York in an oil tanker.

# CAL POLY ROSE FLOATS

1949-1977

The first Cal Poly Rose Float in 1949 entitled "The Rocking Horse" won the award of merit. Since then the students of Cal Poly at both San Luis Obispo and Pomona have entered a float each year.

A history of winning Rose Parade Awards has been a tradition with the Cal Poly Rose floats. In 1976, "High Hopes" (above) won the Founder's Trophy and in 1977 "Tons of Fun" (right) won the Princess Trophy.

# ATHLETICS

The 1976 Football Season was the third most successful season in Coach Joe Harper's nine years at Cal Poly. The team finished with a 7-1-1 record winning the conference. Highlights of the season included a 29-17 victory over Idaho State, a 17-15 win over Fresno and a 26-22 win over Pomona at Pomona. At the Pomona game the Mustangs had to march 65 yards in the last 90 seconds to win the game. Outstanding seniors included Rick Beatty, Rocky Chapman who is number 8 man in Poly rushing with 298 carries for 1298 yards and Dana Nfziger who is a member of the 3rd team All-Americans.

Basketball – the 1976-77 squad finished its season with a 18-9 mark which is the team's 3rd highest win/loss record in Cal Poly history. This is the first time the team has made it to the Western Region finals. The team was led by Senior Gerald Jones,

Linebacker Mike Raymo zeros in on Cal State-Northridge runner.

The Cal Poly Mustang Wrestling team is one of the winningest teams in the country with a 139-O-1 record from 1962 up through this season. The team is led by Seniors Mark DiGirolamo, Charles Harman, Dan Hays, Sythell Thompson and Kim Wasick, who won the regionals and will continue on to the National Championships.

Coach Vaughan Hitchcock is in his 15th season at Cal Poly, which includes seven straight NCAA Division II National Championships. Eight of the last nine years Hitchcock's teams have compiled an impressive .817 winning percentage in dual meets winning 217 matches, losing 47, and tying 4 times.

This past summer Hitchcock served as team leader-coach of the U.S. Greco Roman team at the Olympics. In 1968 and 1973 Coach Hitchcock was selected as NCAA College Division "Coach of the Year."

Cheerleaders Denise Leach, Melanie Hardoin, and Susie Bragg lead students at football game.

Poly Royal is a main event on the Poly Campus. Poly Royal includes exhibits and displays from every department and many clubs, organizations offering the public an excellent opportunity to see work done by students. There are also carnival attractions, entertaining performances, and a wide choice of delicious food at various locations.

Carl Beck is known as the father of Poly Royal. He started Poly Royal in 1932 with a livestock show. In the beginning Poly Royal was known as a country fair on a college campus, with only students attending. But over the years due to many hard working people, today's Poly Royal attracts visitors from throughout the state.

The two-day event has grown in popularity from just students, to over 90,000 people in attendance at last year's Poly Royal.

# GRADUATION

J. Cordner Gibson, then Dean of the School of Agriculture and Natural Resources, along with other administrators and faculty, served graduating seniors at the 1976 Senior Brunch.

# AGRICULTURE / NATURAL RESOURCES COUNCIL

The School of Agriculture and Natural Resources Student Council serves as a coordinating body between the 23 clubs in the school. In addition to the club representatives, there are five Student Affairs Council representatives and representatives to various universitywide committees who keep the Ag Council informed as to what is occurring in the universitywide bodies of the Associated Students, Inc.

The Ag Council sponsors many activities throughout the year. Tours of the agriculture units at Cal Poly are sponsored by the council and are primarily given to elementary and high school students. The council sponsors a newsletter, the **Ag Update**, which serves to keep the students of the School of Agriculture and Natural Resources informed of activities within the school. In order to promote agriculture, the clubs of the school are actively involved in Farm-City Week and Agriculture Day.

Every year a Club of the Year and a Club Advisor of the Year are selected by a committee of the council. Also three outstanding seniors from the school are selected each year on the basis of academic excellence, and leadership schoolwide and universitywide.

The Ag Council is the largest and most active council at Cal Poly, and represents the largest school in the University.

## Outstanding Seniors

Twenty-three year old Ole Meland received recognition for contributions to the objectives and public image of the University.

In addition to being the ASI President this year, this Dairy Science Major has a long record of involvement in such universitywide bodies as Student Affairs Council, Finance (Chairman), Poly Royal Board, and the Academic Senate. Ole has been active in the Los Lecheros Dairy Club and was named as the outstanding senior. He was also a member of the Dairy Judging Team, Alpha Gamma Rho, Alpha Zeta, and Young Farmers.

Ole's hometown is Redding, California, and he plans to continue his education in Dairy Genetics at Virginia Polytechnic Institute next fall.

Agriculture Management Major Ron Kuber was selected for outstanding service to the School of Agriculture and Natural Resources.

Twenty-two year old Ron was chairman of his school council and served on Student Affairs Council, Student Executive Cabinet, and Speakers Forum. He has been active in Alpha Gamma Rho, Alpha Zeta, NAMA, and Young Farmers. Ron was awarded membership in Phi Kappa Phi, in the spring of last year.

Ron's hometown is Lakewood, California, and he plans to take a position as advertising sales manager for Nelson R. Crow Publications on the west coast.

Maria Gallo, an Agricultural Management major was selected for recognition by her school council for Academic excellence with a 3.98 G.P.A. and a long list of activities.

This 21 year old coed transferred from Modesto Junior College where she was awarded the outstanding sophomore agricultural student award in 1975. While at Cal Poly, Maria has been active in NAMA, ABM Club, Alpha Zeta, Young Farmers, and the Food Industries Club. In addition she has been a little sister for Alpha Gamma Rho and has served as chairperson of the NAMA Ag Day Committee at Cal Poly.

Maria's hometown is Modesto, California and she hopes to work in Agricultural Marketing after graduation.

# SCHOOL OF ARCHITECTURE

This year marked the completion of the Architecture and Environmental Design Classroom building. Still referred to as "the new building", it houses the photo lab, four floors of design labs and the School's administrative offices. Below are some sight around the school. Enjoy.

Freshman holiday usually starts off the freshman's life at Cal Poly. Freshman Holiday, held once each year, is for new students in the School of Architecture and Environmental Design to become acquainted with our "learn by doing" motto.

Poly Canyon is the School's "outdoor laboratory" and is constantly evolving with new structures and projects.

The School participates extensively in Poly Royal, and many of the School's large-scale projects are presented at that time.

## Outstanding Seniors

Jan Edwards was the 1976-77 recipient of the Outstanding Senior Award for her service to the School of Architecture and Environmental Design.

David Palmer was awarded Outstanding Senior for Academic Excellence in the School of Architecture and Environmental Design, 1976-77.

Fred Heaton was awarded Outstanding Senior by the School of Architecture and Environmental Design for his contributions and service to the betterment of the University.

## Outstanding Seniors

### JOHN DIETRICH

John Dietrich has many accomplishments to be proud of. His current GPA is 3.96 in Electronic Engineering. He received a special award from NASA as a co-op student for his superior attributes. He served as chairman and treasurer of IEEE and remained active in several other engineering clubs.

### JOHN DURRENBERGER

John Durrenberger accomplished many feats during his stay at Cal Poly. His GPA in Industrial Engineering is 3.8. He is a member of AIE, chairman and treasurer, Rally committee, and a WOW week counselor. He belongs to three honor societies as well as other ASI activities.

### RAY DAVIS

Ray Davis can attribute his accomplishments to the many long hours he spent on ASI activities. He is a Transportation Engineer who served his senior year as ASI vice president. He was active in SAC, SEC, and various other ASI groups. He served on such University organizations as Dean's Council and Administrative Council.

## ENGINEERING AND TECHNOLOGY COUNCIL

The Engineering and Technology Council consists of one representative from each of the 25 engineering clubs and one representative from each of the 11 engineering departments. The council meets once a week during fall, winter, and spring quarters to discuss any topic brought before the group. The body acts as a middleman between the students and the Dean's Council, the Student Affairs Council, and the Finance Committee. This gives the student ample opportunity to find out what's happening in student government and offers an open-door for communication with the faculty.

The Engineering and Technology Council started off the 1976-77 school year with a picnic at Cuesta Park in November. The big event of the year is Engineers' Week in February. During this week the council pays tribute to the engineering profession and sponsors a series of activities to make students aware of engineering. The other event sponsored by the Council is the Poly 500 Soapbox Derby. This activity gives the different departments, as well as other schools, a chance to compete for top honors in this Poly Royal event.

The Engineering and Technology Council congratulates the three students receiving the Outstanding Senior Awards.

# SCHOOL OF SCIENCE AND MATHEMATICS

**Science and Math Council. Back Row: Katy Weber, Chris Kearny, Babette Crabtree, Barry Hills, Don Fipps, Larry West, Ed Evans. Front Row: Ed Beauchamp and Kirk Winn.**

The Science and Math Council provides a medium for representing our students in the academic and student government structure. It is the main way in which intraschool information is passed among students. MORE IMPORTANTLY, it is how students' opinions are brought before the Associated Students, Inc., and the University.

## Outstanding Seniors

Ms. Costigan began her education at Philadelphia Museum College in 1963 but after completing 12 units she discontinued her formal education and went to work for eight years. She resumed her education at Cal Poly in 1972 and has been a full time student for the past three years.

While at Cal Poly, she has been employed by the Audio-Visual department as an illustrator and now works part-time for the State Department of Parks and Recreation as a script writer for slide presentations. She does enjoy writing as well as art and last spring won second place in a poetry contest sponsored by the English department. She is a member of the Natural History Association of the San Luis Obispo Coast and donates her artistic talents when needed.

Ms. Costigan is a member of the national scholastic honorary, Phi Kappa Phi. Currently her plans include graduate studies in pest control (her concentration at Cal Poly is plant pathology and entomology.)

Donald R. Fipps is 22 years old and has been married for 1½ years to Donna. He graduated from Delano Joint Union High School. Delano is his hometown. He entered Cal Poly Fall quarter of 1973 as a Biochemistry major. Upon graduation he will receive a 2Lt. Commission in the U.S. Army in the Medical Service Corp., and he will go on active duty shortly thereafter.

He has been a member of Finance Committee, Publishers Board and Science and Math Council for two years. In the Military Science Department, he reached the rank of Cadet Captain, and was designated a Distinguished Military Student. He received a 3-year Army scholarship as a sophomore, which paid his way through school (with the help of his wife).

He has also belonged to the Rose Float Committee and Club, the Drill Team, the Color Guard, and Scabbard and Blade.

Katy Weber is 23 years old and came to Cal Poly spring quarter of 1973 as an Architecture Major. She entered the ROTC Program in the Fall of 1973 and in the Fall of 1974 became a member of the Science and Math Council as a representative of Scabbard and Blade (a military honor/service society affiliated with the School of Science and Mathematics, through the Military Science Department). In the Fall of 1975 she was secretary to the Council and in the Fall of 1976 she became chairperson of the Council.

Other campus groups that Katy has been involved with are: Codes and Bylaws Committee, ASI Videotape Committee, Speakers Forum Board, Films Committee, Rose Float Committee (Publicity Chair), H Company 13th Regiment of Scabbard and Blade, Military Science Activities and Advisory Board. Upon graduation, she will be commissioned a 2Lt in the U.S. Army in the Corps of Engineers and will go on active duty at Fort Belvoir, Virginia.
